

Desenvolvendo RESTful APIs com Ruby on Rails

Jackson Pires

Autenticação HTTP no Rails

Auth Basic no Rails

`http://api.rubyonrails.org/classes/
ActionController/HttpAuthentication
/Basic.html`

Auth Basic no Rails

```
http_basic_authenticate_with
```

Auth Basic no Rails

```
include ActionController::HttpAuthentication::Basic::ControllerMethods
```

```
http_basic_authenticate_with
```

Auth Basic cURL

```
curl -u jack:secret  
http://localhost:3000/contacts
```

Auth Digest no Rails

`http://api.rubyonrails.org/classes/
ActionController/HttpAuthentication
/Digest.html`

Auth Digest cURL

```
curl --digest -u jack:secret  
http://localhost:3000/contacts
```

Auth Digest no Rails

```
include ActionController::HttpAuthentication:: Digest::ControllerMethods  
  authenticate_or_request_with_http_digest
```
