

# Desenvolvendo RESTful APIs com Ruby on Rails

Jackson Pires

# Autenticação baseada em token (Rails)

# Autenticação via Token

```
http://api.rubyonrails.org/classes/  
ActionController/HttpAuthentication  
/Token.html
```

# Token

```
include ActionController::HttpAuthentication::Token::ControllerMethods  
  authenticate_or_request_with_http_token
```

# cURL

```
curl http://localhost:3000/contacts  
-H "Accept:  
application/vnd.api+json" -H  
"Authorization: Token xxxxxx"
```

# Timing Attack
