

# Desenvolvendo RESTful APIs com Ruby on Rails

Jackson Pires

I18n para data (as\_json)

## I18n para data (as\_json)

---

- **as\_json**

```
def as_json(options = {})  
  h = super(options)  
  h[:birthdate] = (I18n.l(self.birthdate)  
    unless self.birthdate.blank?)  
  h  
end
```
