Erros Amigáveis

Erros JSON padrão

Erros JSON API Specification

`http://jsonapi.org/format/#errors-processing`

```ruby
# app/serializers/error_serializer.rb
module ErrorSerializer
  def self.serialize(errors)
    return if errors.nil?
    json = {}
    new_hash = errors.to_hash.map do |k, v|
      v.map do |msg|
        { id: k, title: msg }
      end
    end.flatten
    json[:errors] = new_hash
    json
  end
end
```

```
# controller

include ErrorSerializer

render json: ErrorSerializer.serialize(@contact.errors)
```
